

Speak Up for Dyslexia

24 March 2018

Workshops

Workshop 1 - Mission Superpower!

Meet Persisto, Willforce, Creatia and Mr Dyspicabilia in this workshop which will help you think about how to overcome some of the difficulties dyslexia can bring. Create your own superhero to defeat the baddies!

Workshop 2 - Using an iPhone / iPad to help with your dyslexia

Allan and Craig from CALL Scotland will show some of the features built into iPads and iPhones to help with reading and writing and a few nifty apps that may also be useful. They'll be bringing some iPads to give you a chance to try them for yourself.

Workshop 3 - Bricks 4 Kidz Motorised Lego Workshop

An activity to engage your curiosity and creativity! Build a motorised model following instructions and using special Lego kits, then have a go at modifying it and making it better.

Workshop 4 - The 5 Ps of Creativity

You're dyslexic - great! You naturally possess powers of creativity and problem-solving that the average person just can't wrap their brains round. But just because you're naturally good at something doesn't mean you can't become even better at it.

Join author Iain McKinnon for a workshop that will tax your powers of invention, creativity and idea generation.

Workshop 5 - XdysleX magazine

Join our North East Youth Group to find out about their new online magazine and tell them your story so you can appear in print! Your help is needed - to show how amazingly talented many young people with dyslexia are, how there can be positives and help at hand, sharing of interesting info and fun... and helping think up a name for the magazine.
