

# A present that builds a future

Dear

2020 has been a very different kind of year that has been hard for many people and organisations. This year, I'm giving ethical gifts: things that make a positive difference in the world.

My gift to you is one year's membership with Dyslexia Scotland. This Scottish charity is a small organisation that makes a big difference and it's very close to my heart. Throughout 2021, they will send you their wonderful magazine with news and updates about the life-changing work they do right here in Scotland. You'll even receive a digital badge to show that you're a supporter. Activate your membership at [www.dyslexiascotland.org.uk/gifted](http://www.dyslexiascotland.org.uk/gifted)

I hope you enjoy your one year membership subscription. This gift is something I hope will help make a wee difference to a big cause, as well as give you something special.

Happy Christmas
