

Dyslexia Adult Network (DAN)

Campaigning for adults with Dyslexia and related SpLDs

What is DAN?

The Dyslexia Adult Network (DAN) has been founded to **increase awareness** of the impact of dyslexia and related conditions on adults.

We are made up of representatives of the major dyslexia charities and of specialists, including adults with dyslexia.

There are many **myths about dyslexia** in adults which we want to eradicate.

We also want to draw attention to the **waste of potential** (arising from inadequate education and lack of good support) which has an impact on us all.

We are identifying **key areas for our campaigns**. We are passionate about campaigning to change mindsets and gain recognition for this hidden issue which affects 10 million people in the UK.

This is only the beginning. Watch this space...
